

Whereas the Professor hereof, *Iacobus Maximinus*, borne in *Italy*, and lately come out of *Germanie*, hath attained vnto the demonstration of the making of Foure most strange and rare Artificiall Stones, and a sweete Ball, and the true

vertues thereof: and the Names and Colours of euery stone.

The first, is the *Moraccolocius* Stone is white: The famous *Amthist* is the redde Stone: The famous *Safaris* is the purple Stone: The *Safonya*, which is the Straw coloured Stone, &c.

THE *Moraccolocius* Stone is white, it is very good to helpe the Canker in the mouth or throat, and all euils that come of Blood or chelme: it must be dissolved in white wine, it helpeth in thre washings, with Gods helpe. *Probatum est.*

2 It is appointed helpe for the Tooth-ach, and all rotten and stinking Teeth: put this Stone to the hole or aking tooth, and it brings forth the worme, and the wine, and is present helpe (with Gods helpe) and maketh the mouth sweete. *Probatum est.*

3 It is good for a stopping, or a stuffing in the stomach with any kinde of flegme or glart, or heart-burning, and heart-aking, take it fasting in halfe a pint of Beere, or Ale, and it is present helpe. *Probatum est.*

THE famous *Safonya* Stone, is the straw coloured Stone, it is very good for the cornes in your face and eares, soaking your cornes in warme water, and then pare them, and haue some powder of the Stone, and it helpe them sodainly, the powder being layd thereto. *Probatum est.*

2 Take this Stone into powder, and mire it with oyle of Bayes, and it will kill the itch, and make no Lice shall trouble any one if the body be annointed therewith. These Stones haue bene proued, and haue holpen many one in this Citie of London. *Probatum est.*

The Professor hereof doth make a sweet Ball of diuers colours, which is good to take off the Goppew, and all spots, and Sunburnes, and cleareth and beautifieth the face, if you wash it in the mornings, and rub it with a flannell cloath. And this Ball will take out staynes out of any wollen or silke in faire water to be washed. *Probatum est.*

THE famous *Amothust* Stone is red, it is good for the paine in the huckle-bone, or spines, take the Stone, beat it to powder, and mire it with Swine grease, and annoint it by the fire very well, and it is present helpe, it takes away the paines and swellings. *Probatum est.*

2 Make a playster of this Dyntment, and lay it to the stomacke, or to the nauell of Children, and it brings away the Wormes, both Chest-wormes and other, in foure and twenty houres. *Probatum est.*

3 Dissolue this Stone into foure spoonefuls of water, and snuffe by part of a spoonefull at the nostrils, and hold somewhat betwixt the teeth, and let the chelme voyd out, and it helps the paines of the head, and the hearing, and the Pogram, and sore eyes, and brings away the chelme out of all parts of the head. *Probatum est.*

4 This red Stone is very good to stanch Blood: put it to the bleeding place, or weare it about the necke. *Probatum est.*

THE famous *Safaris* Stone is the purple Stone, it is very good to helpe the Shaking Palsie and the Shaking Ague, and all Shaking of the Joynts. Solue this Stone in a little silke bagge, and weare it about your necke, and with Gods helpe it is holpen in twenty dayes. *Probatum est.*

2 This Stone is very good, and a present helpe for the Crampe: solue it in a little bagge, and weare it about your necke. *Probatum est.*

The Professor hereof, doth make a blew Stone, which is good for the Greene Sickness, and procureth vrine, and causeth the Stone to voyde, and doth expell the winde in the body: you must take it in the morning with Posset Ale, foure mornings together, and deuide it into foure parts. *Probatum est.*
